

MESHEIK BROWN

New Castle, DE | 302-465-4182 | mesheik765@gmail.com

PROFESSIONAL SUMMARY

IT support professional with experience in NOC and Help Desk environments specializing in infrastructure monitoring, incident triage, and SLA-driven support. Experienced using Zabbix, ServiceNow, and Active Directory to diagnose and resolve enterprise system issues. Currently expanding development and automation skills through the Code Differently AI-Powered Software Engineering program.

SKILLS & CERTIFICATIONS

- **Technical Skills:** Enterprise monitoring (Zabbix, Genetec); IT Service Management (ServiceNow); Identity & Access Management (Active Directory); VPN provisioning; Network fundamentals (TCP/IP); Incident response & SLA adherence; Tier 1 end-user support; Multi-OS troubleshooting
- **Professional Competencies:** Incident triage; Risk identification; Process documentation; Escalation coordination; Professional stakeholder communication
- **Certifications:** Certified ScrumMaster

PROFESSIONAL EXPERIENCE

NOC Analyst | ADT / Everon Solutions | Newark, DE | July 2022 – October 2025

- Monitored enterprise infrastructure using Zabbix and Genetec, analyzing system data to identify performance risks and service interruptions.
- Responded to and escalated incidents within a strict 15-minute SLA, ensuring rapid triage and minimizing service disruption.
- Performed real-time log analysis and structured troubleshooting to accelerate root cause identification during high-severity outages.
- Collaborated cross-functionally to restore services and improve operational uptime.
- Supported VPN user provisioning and remote access security for distributed teams.
- Maintained accurate documentation and reviewed work carefully to ensure technical accuracy.

Help Desk Analyst | USI Insurance | West Chester, PA | October 2021 – July 2022

- Delivered Tier 1 technical support in a fast-paced enterprise environment, resolving an average of 25+ tickets per day via phone and remote support tools.
- Managed Active Directory user accounts, permissions, and group policies.
- Resolved hardware, software, and connectivity issues across multiple operating systems.
- Applied de-escalation techniques to maintain professionalism in challenging situations.
- Documented tickets thoroughly to ensure accountability and knowledge sharing across teams.

EDUCATION

Code Differently AI-Powered Software Engineering Program | Wilmington, DE | In Progress

Intensive, project-based training program focused on AI-powered software engineering, agile collaboration, and applying analytical problem-solving to real-world challenges.

Alexis I. Dupont High School | Wilmington, DE | High School Diploma

PROJECTS

Arcade Lab | <https://github.com/Mesheik/java-loop-control-arcade-lab> | Console-based Java application demonstrating loop control, conditionals, and user input to simulate simple arcade-style program logic.

Virtual Bank | <https://github.com/Mesheik/mesheiks-virtual-bankaccount> | Object-oriented Java banking system implementing classes, inheritance, and account operations such as deposits, withdrawals, and balance management.
